THE 10000 LINE

These fixtures present the splendor of crystal at its best. Dignified in design, elegant in finish and colorful in effect — they meet every need of the increasing demand for crystal fixtures. The Crystal Cut frosted chimneys add to the charm of these fixtures, harmonizing beautifully into the general effect. Homes that demand unquestioned good taste in every decorative detail can do no better than to select crystal fixtures from this complete line.

THE 10000 LINE

The pinnacle of lighting splendor is reached by these Markel Crystal Fixtures. Dignified in design, elegant in finish and colorful in effect, they provide a sparkling brilliance impossible to achieve with any other type fixture. The return to a more gracious spirit of living is greatly increasing the appreciation for crystal fixtures. The numbers in this line are traditionally correct in design and thoroughly in good taste in modern homes as in the salons of Louis XIV.

THE 10000 LINE

For centuries Crystal fixtures have been preferred in homes where fine things and gracious living go hand in hand. By day or by night, no other type of lighting equipment is so lovely to look at, so thoroughly in good taste. They have the quality of adding distinction to any home that passing fads and fancies in lighting can never destroy. Note that these Markel Crystal Fixtures possess the added beauty of Crystal Cut Frosted Shades.

THE 8300 LINE

In these fixtures better light for better sight is admirably combined with smart styling in the contemporary manner. Note particularly the Opal Glass Bottoms in fixtures Nos. 8336 and 8346 for downward diffusion of soft glowing light—a feature especially desirable in dining room lighting. Here may be used bulbs up to 150 watts for complete illumination of the table. Finished in French Bronze or Ivory Crackle and Gold with Pearl Iridescent Glass Shades.

THE 7800 LINE

Constructed of plastic and metal, with glass bottom in No. 7856 for downward diffusion of light. These fixtures are as modern as tomorrow in materials, design, efficiency and beauty. They reduce surface glare to a minimum without sacrificing high light output. Note the harmony of line and design in every element of these fixtures. They are widely adapted for many rooms in the home and are especially desirable for dining room illumination. The plastic panels are in Ivory and the fixtures are finished in Empire White and Gold or French Bronze and Gold.

THE 7800 LINE

A new type of beauty has been designed into the fixtures of the Markel 7800 line. But of outstanding importance is the high degree of lighting efficiency these fixtures deliver. Note particularly No. 7837 with its plastic panels for wide spreading of light without glare; also the circular plastic bottom for downward diffusion of light. Finished in Empire White and Gold or in French Bronze and Gold. Plastic panels are Ivory. The scientific efficiency of this and other 7800 line fixtures is charted and analyzed on the reverse side of this page.

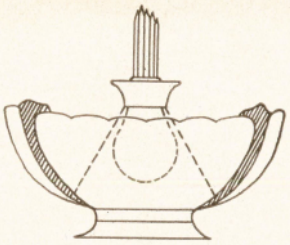
APPROVED BY William ENGINEER IN CHARGE OF PHOTOMETRY

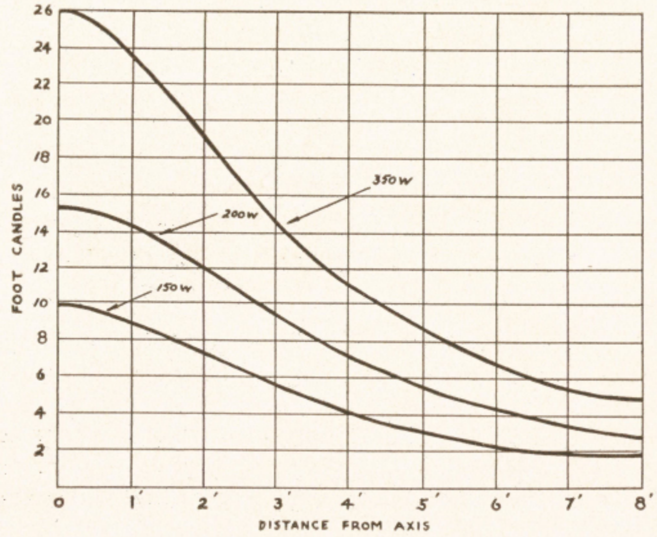
C. E. Korn
IN CHARGE OF TEST

Facsimile of Electrical Testing Laboratories official report on the lighting efficiency of Markel fixture No. 7837. Note the high light output of 67.5% combined with low surface brightness.



THE MARKEL 7800 LINE

. . . *outstanding for Illumination Efficiency*



Study the chart and graph on this page. They present scientific data of the high lighting efficiency of the Markel 7800 line. Note in the chart to the left the wide distribution of actual foot Candle Illumination on table surface under normal conditions when used with 150, 200 and 350 watt bulb. The high efficiency is accompanied with soft, well diffused illumination with low surface brightness for Better Light for Better Sight and the elimination of eye strain.

THE 7730 LINE

Seldom has a line of fixtures been created which possesses so much distinction and all around good taste. Though uncompromising in its modern lines, it has the unusual quality of fitting equally well into period interiors. Note the complete harmony of all elements of design, the striking beauty of the Mushroom shaped Beige colored glassware, the simplicity of body construction and the chaste ring, ball and loop decoration. Finished in French Bronze and Chromium. Shades are held firmly in place by especially designed spring clamps, patents applied for.

THE 6330 LINE

Modern designing without severity characterizes this new Markel line to adapt it to contemporary decorative themes as well as many period rooms. The beautifully proportioned iridescent glassware delivers glowing colorful light without glare for restful seeing and eye protection. The fluted columns, banded in Chromium, the graceful trumpets and loops with Chromium finish are fine interpretations of the modern influence in designing. Finished in French Bronze and Chromium. The shades are attached by a special clamp, Patent Applied For.

THE 6300 LINE

A delightful moderation in modern designing adapts these fixtures to almost all types of homes with unquestioned good taste. The fluted columns and well proportioned shades give complete harmony of line and balance to the fixtures in this line. The Ivory glassware banded in the Blonde finish of the fixture adds a warmth of color that is highly complimentary to the new finish in this line. Finished in Blonde and Gold—an outstanding color tone of today. The shades are attached by a special clamp, Patent Applied For.

THE 6000—6050 LINES

These fixtures recall pioneer days in their primitive beauty, and sturdy massiveness. Authentic in design, they reflect the best in Early American designing and beautifully harmonize with Old English and Provincial interiors. Note that the 6000 series is finished in Natural Forge with glassware in Frosted Crystal; the 6050 series is finished in Antique Bronze with Amber Glass Shades. Note also the Frosted Crystal Bottoms in the six light fixtures. Cast in Aluminum.

THE 5500 LINE

In these fixtures, modified modernism is the dominant note. The sweeping curve of the arms is new and adds graceful symmetry to the fixtures as a whole. The fluted columns, finished in Blonde and banded in Gold, are complimentary to the general design characteristics of the fixtures. Note the Ivory toned glass shades for better sight. They harmonize perfectly in line and design and deliver a flood of well diffused light. Finished in the new and extremely popular Blonde and Gold.

THE 5200 LINE

Modern designing without severity characterizes this beautiful Markel 5200 Line. Note the massive effect achieved by the use of fluted Glass Shades and the marbleized composition columns. The metal parts are finished in English Bronze with gold toned hylites and the shades are Ivory color to harmonize with the columns. These fixtures are especially beautiful when illuminated, delivering an abundance of soft shaded light without glare to meet today's standards of better light for better sight.

THE 4630 LINE

The use of Doric fluted glassware in a warm Ivory tone provides the predominate note of interest in this new line of Markel fixtures. It gives a massive spread of beautiful light for better sight — soft, colorful and well diffused. Finished in French Bronze and highlighted in Chromium. A line of fixtures that is well adapted to many period interiors as well as modern rooms. Shades are held firmly in place by specially designed spring clamps, patents applied for.

THE 3700 LINE

A massive display of beautiful shaded light characterizes the new Markel 3700 line of fixtures. Note the interesting shape of the shades and the effective manner in which their designs harmonize with the fluted columns of these fixtures. Finished in Antique Brown and Gold or Empire White and Gold. Shades are held firmly in place by specially designed spring clamps, patent applied for.

THE 3630 LINE

Beautiful colonial fixtures, tempered in design to modern decorative requirements. Note the graceful sweep of the arms and the symmetry of the body elements — also the fitness of the shades to general design of the fixtures. These fixtures are finished in Pearl Ivory and Gold — beautifully harmonizing with the trend for simplicity in colonial treatments. The shades are of Ivory plastic, practically unbreakable and produce a soft diffused light for better sight and eye protection.

Glassware—G-488 for 3472-77-78-79 Ivory toned
G-4881 for 3471 White Opal

THE 3470 LINE

The fixtures in this new Markel line utilize a modernization of the fluted Doric motif in a strikingly new and beautiful manner. Note the harmony in line and design between the fluted columns and the moulded glass bottoms of these fixtures. Though created in the modern manner these fixtures are equally well adapted to period interiors. No. 3471 finished in Nuchrome with White Opal Glass Bowl. No. 3477 finished in Blonde and Gold with Ivory toned Glass Bowl. All others finished in Empire White and Gold with Ivory toned Glass Bowl.

THE 1800 LINE

The rustic charm of these Swedish Iron fixtures recall the hand forged individuality of early American craftsmanship. They are authentic in design, retaining the style characteristics of their originals. The Swedish Iron Finish is true to tradition in color. Note that the brackets and one, two and three light ceiling fixtures are also finished in Ivory and Gold.

THE 1550 LINE

The peak of lighting efficiency in one-light ceiling fixtures! Modern in design, materials and as advanced as tomorrow in engineering principles. The prismatic crystal glass top gives wide spread light, well diffused and reflected throughout the room; the white transluscent glass bottom provides complete downward illumination with minimum surface brightness. Note the chromium collar which adds to light distribution without glare. Finished in Chromium. Study the charts and data on reverse side of this page for engineering proof of the efficiency of these fixtures.

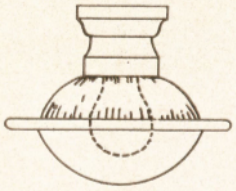
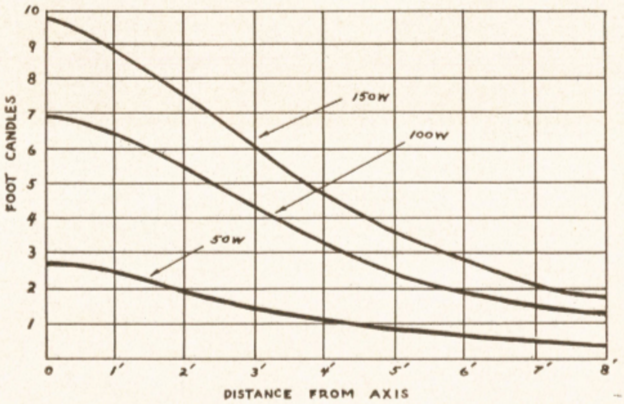
Facsimile of Electric Testing Laboratories official report on the lighting efficiency of Markel fixture No. 1550 illustrated and described on the reverse side of this sheet. Note the high light output of 74% combined with unusually low surface brightness.



High Efficiency and Low Surface Brightness



Note in the diagram above the wide spread illumination of No. 1551 — under normal conditions when used with 50, 100 and 150 watt bulb. Scientifically engineered for low surface brightness to eliminate eye strain and to meet today's standard of Better Light for Better Sight. See reverse side of sheet for general description and specifications.

RESIDENTIAL LUMINAIRES

BETTER LIGHT FOR BETTER SIGHT

DESIGNED to conform to the principles of I. E. S. Better Light—Better Sight Lamps, to solve the problem of providing decorative light for those many places that are so difficult to adequately and scientifically illuminate.

Markel Residential Luminaires possess every desirable feature for eye comfort, sight protection; proper light distribution; elimination of glare and general room illumination.

Especially for

DINING ROOMS

DINETTES

NURSERIES

BEDROOMS

LIBRARIES

HALLS — STUDIES

MARKEL Residential Luminaires are finished in French Bronze or Empire White and Gold to harmonize with any type of furnishing. Equipped with a choice of Silk pleated, Parchment, Rayon covered or Metal Shades. The efficient glass diffusing bowls provide maximum light output. Note wall sconce which is very decorative as well as efficient. A unit which will meet the needs of the entire family.

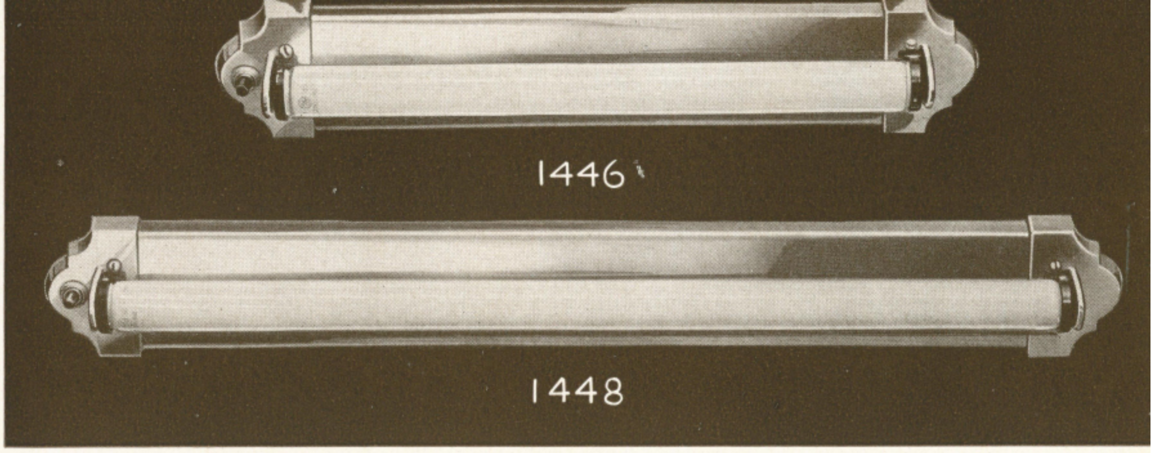
BRACKETS



MARKEL LUMA BRACKETS

For Utilizing the Modern Decorative Possibilities of the New Lumiline Lamps

Markel Luma Brackets have greatly increased the lighting and decorative possibilities of Lumiline lamps. They are particularly effective in giving a modern accent to the lighting of mirrors in halls, bathrooms and bedrooms, also in illuminating difficult corners and wall expanses. Provide soft, diffused light for shelving, mantles and pictures. Equally adapted to homes, stores, show rooms — wherever decoration as well as modern illumination is desired.

Markel Luma Brackets can be mounted directly on a switch box.

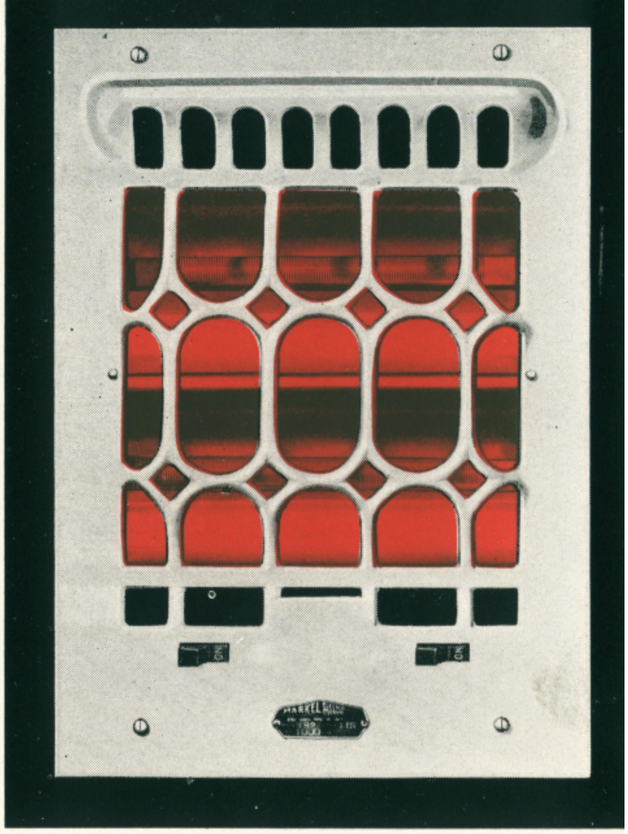
MARKEL HEETAIRES

BUILT-IN WALL TYPE

NEO-GLO

ELEMENTS

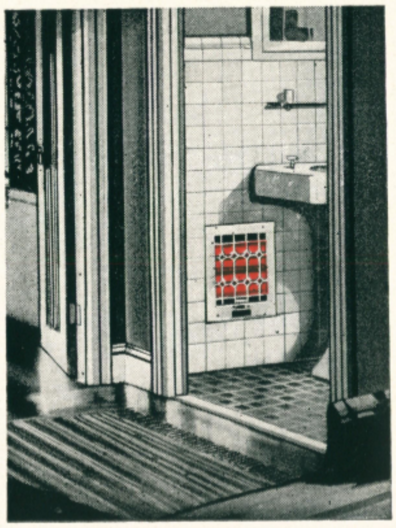


NEW MARKEL HEETAIRE No. 182

Double Element

- Two separate elements, 500 watts each with individual switch control. Beautifully designed and finished. Tested and approved by Underwriters' Laboratories of the National Board of Fire Underwriters.

- Markel Neo-Glo Heetaires, inset wall type, provide the comfort and convenience of electric heat as an integral part of the home. Built into the wall—they are out of the way—ready to deliver volumes of heat at the click of a switch. Markel built-in Heetaires are a permanent addition to the home. The modern solution of auxiliary heating problems. Efficient, economical, practical for old homes or new. They increase the value of the property far beyond their cost. They provide that touch of modern convenience that stamps the home as especially desirable—either to live in, to rent or sell. Being electric, there are no fumes, dirt or dust to soil the walls or create unhealthful odors. They are today the most advanced note in auxiliary heating equipment.



MARKEL HEETAIRES ARE EASY TO INSTALL IN NEW WALLS OR OLD

Markel Heetaires can be readily installed by any electrician, either in a new or an old building.

The operations are the same as when installing a convenience outlet.

Heetaire grills overlap sufficiently so that rough edges of openings do not show.

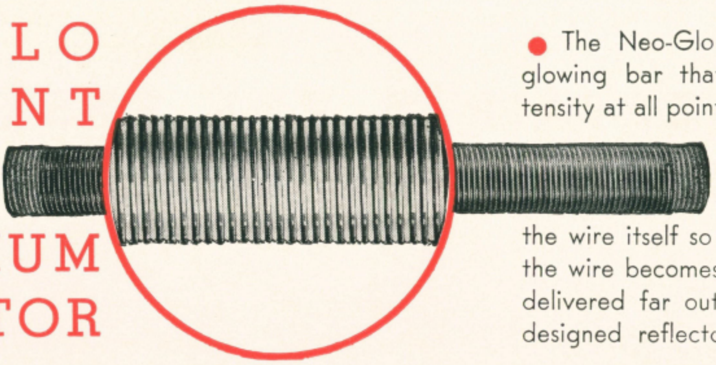
Guarantee: Each Markel Heetaire is guaranteed to be free from defective material and workmanship for one year.

NEO-GLO ELEMENT & CHROMIUM REFLECTOR



The Neo-Glo element with magnified section to show deeply imbedded wire into tube and the accurate spacing between wires.

● The Neo-Glo element in Markel Heetaires is a glowing bar that produces its heat with equal intensity at all points—from one end to the other. There are no hot spots—no cold spots The tube of refractory material attains the same heat intensity as the wire itself so that the entire element and not just the wire becomes a bar of solid, growing heat that is delivered far out into the room by the scientifically designed reflector.

"Neo-Glo" Element Patented U. S. Pat. Office No. 1952426
Trade Marks, "Neo-Glo" and "Heetaire." Reg. U. S. Pat. Office No. 282410 and No. 242028.
